PROFESSIONAL SUMMARY

Dedicated and results-oriented **Full Stack Developer with 1+ years of professional experience** in designing, architecting, and deploying high-performance web applications using modern JavaScript/TypeScript ecosystems and Python. Proven expertise in building enterprise-grade single-page applications, modular RESTful microservices, and interactive data visualization systems for global clients. Adept at full-lifecycle product development, scalable state management, cloud deployments, and agile team workflows.

WORK EXPERIENCE

MERN Stack Developer

October 2025 – Present (1+ Years)

Parivartan Software & Multimedia Pvt. Ltd. | Hyderabad, Telangana

- Designed and engineered **10+ production-grade responsive web applications** and corporate portals using React.js, Vite, Tailwind CSS, and Bootstrap, ensuring 100% mobile responsiveness and cross-browser consistency.
- Developed modular, secure backend microservices using Node.js and Express.js, featuring clean MVC architecture, custom middlewares, centralized error handling, and robust RESTful APIs.
- Architected client-side asynchronous server state management using TanStack React Query, React Hooks, and Context API, eliminating duplicate API calls and improving rendering speed by over 40%.
- Modeled normalized relational schemas and collections across MongoDB, MySQL, and SQLite; established automated migrations, data seeding scripts, and secure CRUD operations.
- Engineered end-to-end token authentication with JWT, bcrypt password hashing, and HTTP-only cookie session protection to prevent CSRF/XSS vulnerabilities and protect administrative routes.
- Integrated payment gateways (Stripe), email automation (Nodemailer, EmailJS), and interactive GIS mapping solutions (Leaflet Maps).
- Crafted complex client-facing features including analytical charts (Recharts), dynamic PDF generation (jsPDF, html2canvas), Excel spreadsheet processing (SheetJS/xlsx), and 3D interactive scenes with Three.js.
- Collaborated within Agile/Scrum sprints using Git and GitHub for version control, conducting peer code reviews and ensuring strict adherence to code standards and CI/CD quality.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), Python, SQL, HTML5, CSS3
Frontend:	React.js, Vite, Tailwind CSS, Bootstrap, Radix UI (shadcn), Responsive UI Design
Backend:	Node.js, Express.js, RESTful APIs, Modular Routing, Custom Middleware
Databases:	MongoDB, MySQL, SQLite, Schema Design, Data Normalization, Database Seeding, Query Optimization
Auth & Security:	JWT (JSON Web Tokens), Bcrypt Hashing, Cookie-Parser, Protected Route Guards, Role-Based Access Control
Libraries & APIs:	TanStack React Query, Context API, Three.js (3D), D3-Geo, Recharts, Framer Motion, Leaflet Maps, Stripe, Nodemailer, jsPDF
DevTools & Platforms:	Git, GitHub, Postman, Webpack, npm, Firebase, Linux, Headless Chrome, Vercel

EDUCATION

RGUKT AP IIIT, RK Valley — Andhra Pradesh, India
Bachelor of Technology (B.Tech) — Electrical and Electronics Engineering (CGPA: 7.27) — **2020 – 2024**

RGUKT AP IIIT, RK Valley — Andhra Pradesh, India
Pre-University Course (Inter MPC; CGPA: 7.78) — 2018 – 2020

ZP High School, Chittoor — Andhra Pradesh, India
Secondary School Certificate (SSC; GPA: 9.8) — 2018

FEATURED ENTERPRISE & CLIENT PROJECTS

Viyash Scientific Ltd. — Enterprise Pharmaceutical Portal [Live: viyash.com ↗] Production Deployment

Tech Stack: React.js, Webpack, Responsive CSS, Dynamic Filtering, REST APIs, SVG Mapping

- Engineered the comprehensive corporate portal for an international pharmaceutical enterprise & global CDMO leader operating 15+ manufacturing facilities across 150+ countries.
- Built an interactive therapeutic category filter system (CNS, CVS, GI, Anti-Retroviral) across API and Finished Dosage Formulations (FDF) product catalogs, enhancing product discovery for healthcare partners.
- Developed high-impact UI modules showcasing manufacturing capacities (2,300 KL+), global facility networks, and regulatory disclosures with sub-second page transitions.

Femme Circle — Full-Stack Wellness & Community Platform [Live: femmecircle.in ↗] Production Deployment

Tech Stack: Node.js, Express.js, React.js, Vite, MySQL2, SQLite3, Three.js, JWT, Nodemailer, Axios

- Engineered a full-stack lifestyle platform featuring custom Node.js/Express backend APIs and dual-database support (MySQL and SQLite) for robust user record persistence.
- Implemented secure authentication with JWT, bcrypt password hashing, and cookie-parser for session management.
- Created a multi-step wellness personality quiz module with dynamic scoring algorithms and automated email dispatch using Nodemailer; integrated interactive 3D elements using Three.js.

ClapKartel — Entertainment Media & Talent Casting Ecosystem [Live: clapkartel.com ↗] Production Deployment

Tech Stack: React 19, React Router v7, Firebase, Framer Motion, Lucide Icons, Puppeteer

- Architected an expansive 40+ component media casting network connecting artists, directors, and casting recruiters.
- Constructed real-time talent search directories, audition casting boards, video reels carousel, and OTP phone verification.
- Integrated Firebase services for persistent user sessions, bookmarking wishlists, direct messaging, and dynamic profile updates.

TechVest Global — FinTech & Strategic Advisory Platform [Live: techvestglobal.com ↗] Production Deployment

Tech Stack: React.js, Vite, Tailwind CSS, Radix UI, D3-Geo, TopoJSON, Recharts, SheetJS (XLSX)

- Developed an interactive fintech advisory web application with global market presence mapping utilizing D3-Geo and TopoJSON.
- Integrated spreadsheet data processing via SheetJS (XLSX) and designed dynamic analytical financial charts using Recharts.
- Implemented spam-protected inquiry handling with Google reCAPTCHA, phone formatting, and EmailJS automated routing.

Sudha Analyticals — Laboratory Equipment & Manufacturing Portal [Live: sudhaanalyticals.com ↗] Production Deployment

Tech Stack: React.js, Vite, Tailwind CSS, Radix UI, Recharts, Framer Motion, React Hook Form, Zod

- Built a modern product catalog showcasing modular laboratory furniture and precision analytical instrumentation.
- Integrated strict schema validations for RFQs and technical service inquiries using React Hook Form and Zod.

Additional Live Client Deployments Production Deployment

- **The Studio Kara** (thestudiokara.com ↗): Luxury interior architecture web app with animated splash screen and responsive editorial layout.
- **Healveda India** (healvedaindia.com ↗): Healthcare and wellness product portal featuring stacked-cards UI and interactive wellness blog.
- **Lavanya & Shankar** (lavanyaandshankar.com ↗): Architecture studio website with interactive project portfolio and Framer Motion transitions.
- **B5 Corporation** (test.whysocial.in ↗) & **Legala** (legala.in ↗): Multi-vertical enterprise corporate portals with services catalog.

CERTIFICATIONS & SPECIALIZED TRAINING

React JS — NxtWave CCBP Certification

Completed rigorous industry-aligned training focused on advanced React.js, component architecture, custom hooks, lifecycle management, context state management, and building performant, production-ready web applications.

Generative AI Mega Workshop — NxtWave [View Certificate ↗]

Completed hands-on practical workshop exploring Generative AI architectures, prompt engineering, LLM integration into modern web apps, and machine learning principles for building intelligent developer tools.
